Test Report

Dates: 4/8/19 - 4/14/19

Summary

Only a few test cases were available to be tested this week. The majority of them passed. The only failure is TC-1a which is a user registration test case. The test case stipulates that the user be directed to their dashboard after successful registration. During my test the user is directed back to the login screen after successful registration which results in a failure for that test case.

Test Case Results

Test Case	Attempt	Status	Description
TC-1a	1	Fail	Upon successful registration user is not redirected to their dashboard, instead they are sent to the login screen.
TC-1b	1	Pass	Passed using test data
TC-2a	1	Pass	Passed using test data
TC-2b	1	Pass	Pass using test data
TC-2c	1	Pass	Pass using test data
TC-3	1	Pass	Passed
